"The nation that has the schools has the future."

DEDICATION

This dedication of the 1949 Arrowhead to our Superintendent of Public Instruction, J. A. Thompson, most aptly described as a friend, is an honored privilege enjoyed by the entire student body. Our Senior Class will long look back to the days spent under Coach Thompson's guidance—an era in which he showed himself to be not only a superior leader but, more important, an excellent follower. His appreciated co-operation in following with interest the activities of students, his organizing ability in sports and social affairs, and his tireless efforts to make our school a better place in every way will be a vivid memory to all of us long after school days have become only a pleasant recollection. We are thankful to be able to dedicate our annual to a man who has dedicated his life's work to us.

CLASS HISTORY

On the bright sunny morning of September 9, 1945 the Freshman Class of Vero Beach High School began their journey through the deep forest of education. There seemed to be no end to this forest as it was our first experience with the paths of English, history, algebra, et cetera. Many times we strayed off the paths and plunged into untrodden places, but with the aid of our teachers and our director, Mr. Willard C. Chinn, we were able to regain our foothold. The months quickly passed and before we realized it, half of our journey was over.

The forest became dense and by the time we had reached the third section of the forest it became necessary to hire guides—Mr. Hall Godbold and Miss Jeanette Willets. We penetrated to where the light was less, and the trees of knowledge crouched nearer and nearer. It became necessary to choose leaders from our group to assist the guides; they were Curtis King, Bob White, Mary Lou James, and Carl Greene.

The forest with its mysterious atmosphere, and the trees stripped of their finery made a perfect setting for our Junior Class Play, "Mystery at Midnight." It also provided an ideal spot for our long-remembered barbecue.

Now we were more accustomed to the forest and had more time to enjoy our surroundings. So as the dusk advanced on us steadily, we gathered near a beautiful stream for one of our greatest and happiest times, the Junior-Senior Prom!

Soon after the Prom our guides were relieved by Mrs. Helen Hancock and Mrs. Madge Longaker. They too felt that group leadership was needed. Our new leaders were David McCain, Douglas Haag, Marjorie Forney, and Ellen Avis.

Time passed quickly and soon we were passing through the last three important paths of the forest—Class Night, with its fun and excitement, Baccalaureate, with its sadness, and last of all, Commencement. As we passed over this last path our thoughts went back over the enjoyable years we had spent in this forest, friends we had made, and teachers we would always remember. The experiences of this journey through the forest of education will help us to be better fitted for whatever task we may encounter.

TO THE CLASS OF 49

Here's to the Class of 49 that we believe is so swell

Here's to the years that have gone by and the work they've done so well

Their high school with its halls of learning

Tolerant teachers, green lawns, and beautiful hedges Leave nothing to yearning.

May this class ever be mindful of its distinction won,

May these students always be proud of their place in the sun.
